ABOUT US

Yaksh Pharma would like to introduce ourself as one leading players in Pharmaceutical Industries since 2005. Our Range of Products includes Active Pharma Ingredients (APIs), Intermediates & Finished Formulations (both Human & Veterinary). We started our venture initially with domestic trading in bulk drugs & gradually ventured into the areas of export, imports, and indenting. Our innovation about Constant diversification and expansion has resulted in creation of large clientele in domestic market.

We have developed strategic partnership with our manufacturing associates having state of art manufacturing facilities and the manufacturing processes are in compliance with WHO, GMP and FDA regulations. This has helped us gain client's Trust for Quality and Consistency.

Our success in the industry is the result of a host of factors, such as wide distribution network, competitive prices and timely supply.

OUR VISION

We aspire to establish YAKSH PHARMA as a preferred partner of pharmaceutical industry for API's in India and worldwide in the quest to offer newer and innovative but cost effective products across all therapeutic segments.

We envision us to be a great place to work, nurture a network of customers and suppliers and be responsible towards society. To achieve a global presence in every sphere of pharmaceutical products.

OUR MISSION

It has been the philosophy of the company to provide World Class Quality Products at Most Affordable Price even to the smallest class of the society to ensure the best healthcare possible. Consistent and sustainable growth has been a fundamental principle of the company.

COMMITMENT

We believe in practicing, what we preach.

Quality, value, and timely responses are the keys to customer satisfaction
